The Wise Boss.

The notorious boss of the notorious gang after boosting other men into office for years, determined to become a member of congress himself and get the first whack at the perquisites instead of coming in on the second deal. Accordingly he called the gang together and made public his decision.

"But the public knows you are a crook, that you have no conscience, that you are in politics only for the graft and that you are always in the market," said a subordinate gangster.

"How can you expect to get enough votes to elect you?"

"That's dead easy," replied the boss.

"Of course we can control the primaries because a majority of the voters in this district take no part in them. That means we can secure control of the convention and give me the nomination, eh?"

"Yes, but after the nomination, what then?"

"Easy enough. We'll tell 'em they must vote for me if they want to hold up the hands of the president, See?"

There was no answering the argument, hence the gang went out and whooped it up for the boss. The result proved that the boss knew a thing or two about "practical politics."
